

Rapid Referral Service for Urological Cancers

Caboolture Private and North West Private hospitals

Our Urologist Dr. Sam Chopra offers a **One Stop** service both for men and women at risk of having a Urological cancer (*Prostate, Kidney, Bladder, Testicular & Penile cancer*).

The aim of this service is to offer patients a streamlined experience and expertise of a highly skilled team.

Suspected Prostate cancer

1. Raised PSA on 2 separate occasions 6 weeks apart (Age stratified cut-off)
2. Abnormal DRE in the presence or absence of raised PSA
3. Normal PSA but Family history of prostate cancer (first degree relative at least 2 male members).

Prior to referral please send Urine for MC&S and **Multi-parametric MRI** of prostate.

If any concerns please contact Dr Chopra directly on **0419 823 285**.

Suspected Bladder cancer

1. Visible Haematuria
2. Persistent microscopic haematuria in the absence of UTI.

Prior to referral please send Urine for MC&S and **Urine Cytologyx3**
